📶 Wi-Fi Set Up 📶

1. On your device Go to Wi-Fi settings

2. Select the BC option

3. When it asks for your info use just your username: firstname.lastname

4. Enter your school password (Wifi Password).

5. Different Devices will have different permissions:

   - On Android devices you need to put your username in the identity and anonymous areas, EAP method: PEAP, Phase 2 authentication: None and CA certificate: Do not validate

6. If a trust issue window appears select Trust.

7. It will take about 1 min to authenticate you the first time but after that as soon as you get in range of our Wi-Fi it will automatically sign you in!
